how our oldest human ancestor was discovered and who she was cover

describes the discovery of the oldest most complete skeleton of any erect walking human ancestor ever found in 1974 in ethiopia

creation and fall originated in lectures given by dietrich bonhoeffer at the university of berlin

in the winter semester of 1932 33 during the demise of the weimar republic and the birth of the third reich in the course of these events bonhoeffer called his students to focus their attention on the word of god the word of truth in a time of turmoil

this volume deals with the fascinating topic of the origin of humankind some of its important areas from palaeontology to genetics have yielded striking contributions however it also has aspects that transcend science and probe deeply into domains that do not pertain to scientific culture proper such as religion and philosophy the volume brings together contributions from a group of palaeontologists and geneticists who present an update of knowledge on the topic the out of africa theory the demise of the neanderthal and the italian scene

modern scientific discoveries often challenge biblical teachings and the long held beliefs of many christians to adam about adam is a serious yet lighthearted autobiography of the author who has known jesus since his childhood but drifted for many years while on his quest for science only while searching for answers to his sons question about creation did the author find his way back to the word of god through his journey the author was able to bring his passion for science and love for god together into a more holistic understanding of gods plan for mankind in a very personal way he uses an open bantering approach throughout the book to establish a friendly relationship with the reader this personal relationship is used to guide the reader through a number of biblical stories to show how god acted as both a loving and caring father and as a scientist in teaching mankind lessons related to overcoming sin to adam about adam may improve the readers understanding of gods plan for mankind and show how science is instrumental to that plan for example the author details how the fall of adam and eve was an important and preconceived part of gods plan not merely perfection gone awry science can explain the basis for the sin we see in the world today whereas the bible describes the only cure thus the bible and science are both integral to the fulfillment of gods plan

for the first time the essential theological writings of dietrich bonhoeffer have been drawn together in a helpful one volume format the bonhoeffer reader brings the best english translation to students and provides a ready made introduction to the thought of this essential thinker

the author of alien agenda illustrates how human civilization may have originated with non humans who visited earth eons ago and may still be here for years we ve been taught that human progress has been a long slow climb from the primordial ooze to hunter gatherers to empires but what if that s only part of the story bestselling author and legendary conspiracy researcher jim marris who has investigated the recent financial crisis the jfk assassination

and the national socialist takeover of america now takes on his biggest subject the history of mankind our occulted history overturns conventional knowledge and beliefs presenting compelling evidence that the earth once hosted prehistoric civilizations using technologies that very well may have surpassed our own sound unbelievable just a few hundred years ago so was the concept that the earth revolved around the sun marris sifts through the historical scientific and cultural record showing how numerous ancient texts and tablets tell of visitors from the stars colonizing the earth from the flying vimanas of the hindu vedic literature and the flying shields reported by the romans to the mysterious airships of the 1800s and the ufos of today he argues that someone other than us is still present on this planet but are these visitors simply observers or do they play a much more active and controlling role jim marris raises this shocking question and more in the provocative and persuasive our occulted history the truth is out there and in here

the abridged version of westermann s classic three volume work on genesis this work presents a magisterial commentary in a condensed and more popular form included are a fresh translation of genesis the philological reasoning behind the translation an examination of the historical background of the original text a survey of all that has been written about genesis together with full references and a consideration of the problems and questions the text of genesis raises for today claus westermann is professor emeritus of old testament at the university of heidelberg

in the far future mankind heads for the stars settling peacefully throughout the galaxy unfortunately there is still a very real very human need for violence that s where the duelists come in they function as bounty hunters peacekeepers mercenaries and with war on the horizon they re the only fighters left

a comprehensive encyclopedia of world history with 538 articles that trace the development of human history with a focus on area studies global history anthropology geography science arts literature economics women s studies african american studies and cultural studies related to all regions of the world provided by publisher

this text begins with a summary of the history of the subject and then provides an overview of the objectives and processes of archaeological research and the basic principles of culture context and dating methods
