couples therapy multiple perspectives is a springboard from which therapists may begin to answer such questions as what are the ingredients essential to good relationships what are the ingredients essential to activity within the psychotherapeutic relationship how can what therapists know regarding psychotherapy be combined to create a whole greater than the sum of its parts barbara

jo brothers aids therapists in answering these and other questions about the basic ingredients the common denominators and the universal threads of work with couples from exploring the theories and methods of successful therapists as there are many ways of looking at couples therapy this volume encourages therapists to work cooperatively not competitively in developing clients possibilities couples therapy multiple perspectives is intended to assist therapists working with couples achieve a broader view of their work and a richer range of choices in helping their clients every article especially the two by master therapists florence kaslow and maurizio andolfi moves readers toward a tapestry of therapeutic possibilities features of couples therapy multiple perspectives include an in depth look at the ingredients of a successful marriage or what makes marriages work for the long term by florence kaslow an article by maurizio andolfi translated by vincenzo dinicola which brings together an excellent integration of theories including those of bowen fram and whitaker andolfi describes a transgenerational approach to work with couples in crisis with a case example of the value of doing family of origin work in the initial phase of therapy in an interview segment with virginia satir with sheldon starr phd in 1985 she explores how all good therapy has essentially the same ingredients readers will find satir s ideas timeless and thought provoking indeed they may re evaluate their own position and theories on therapy with couples

this book brings together in a single volume the fields of multicriteria decision making and multiobjective optimization that are traditionally covered separately both fields have in common the presence of multiple perspectives of looking at and evaluating decisions to be taken but they differ in the number of available alternatives multicriteria approaches deal with decision processes where a finite number of alternatives have to be evaluated while in multiobjective optimization this number is infinite and the space of alternatives continuous this book is written for students of applied mathematics engineering and economics and management with no assumed previous knowledge on the subject as well as for practitioners in industry looking for techniques to support decision making the mathematical formalism is very low so that all materials are accessible to most readers nonetheless a rich bibliography allows interested readers to access more technical literature the textbook is organized in eleven chapters each corresponding to a class of about two hours a comprehensive set of examples is presented allowing for a didactic approach when presenting the methodologies each chapter ends with exercises that are designed to develop problem solving skills and to promote concepts retention

it has not been yet clarified whether allergy and asthma are part of the same condition or they follow a parallel path this research topic aims to try and put some light in this parallel march going through crucial topics from prenatal events to later risk factors such as obesity and from basic immunology to immunotherapy both subcutaneous and sublingual we hope the readers can infer their own conclusions as what is first egg or

chicken

this unique volume takes readers behind the scenes for an insider outsider view of education policymaking in action two state level case studies of social studies curriculum reform and textbook policy california and new york illustrate how curriculum decision making becomes an arena in which battles are fought over national values and priorities written by a new york education professor and a california journalist the text offers a rare blend of academic and journalistic voices the great speckled bird is the authors counter symbol to the bald eagle a metaphor representing the racial ethnic cultural diversity that has characterized the u s since its beginnings and the multicultural reality of american society today the text breaks new ground by focusing on the intersections of national debates and education policymaking it situates the case studies within historical and contemporary cultural contexts with particular attention to questions of power and knowledge control and how influence is exercised by juxtaposing the contrasting cases of california and new york the authors illustrate commonalities and differences in education policymaking goals and processes by sharing stories of participants at and behind the scenes policymaking comes alive rather than appearing to result from impersonal forces or factors

the philosophy of perception has been an important topic throughout history appealing to thinkers in antiquity and the middle ages as well as to figures such as kant bergson and others in this wide ranging study mark eli kalderon presents multiple perspectives on the general nature of perception discussing touch and hearing as well as vision he draws on the rich history of the subject and shows how analytic and continental approaches to it are connected providing readers with insights from both traditions and arguing for new orientations when thinking about the presentation of perception his discussion addresses issues including tactile metaphors sympathy in relation to the concept of fellow feeling and the wave theory of sound his comprehensive and thoughtful study presents bold and systematic investigations into current theory informed by centuries of philosophical enquiry and will be important for those working on ontological and metaphysical aspects of perception and feeling

rules about sexuality written and unwritten have existed in every culture as have disagreements over what is and isn't acceptable must morally permissible sex have only one function must it be heterosexual must it occur within the confines of the institution of marriage must it be accompanied by requisite emotions such as love and intimacy

the public outcry for a return to moral education in our schools has raised more dust than it's dispelled building upon his provocative ideas in on becoming responsible michael pritchard clears the air with a sensible plan for promoting our children's moral education through the teaching of reasonableness pritchard contends that children have a definite but frequently untapped capacity for reasonableness and that schools in a democratic society must make the nurturing of that capacity one of their primary aims as fundamental to learning as the development of reading writing and math skills reasonableness itself he shows can be best cultivated through the practice of philosophical inquiry within a classroom community in such an environment children learn to work together to listen to one another to build on one another's ideas to probe assumptions and different perspectives and ultimately to think for themselves advocating approaches to moral education that avoid mindless indoctrination and timid relativism pritchard neither preaches nor hides behind abstractions he makes liberal use of actual classroom dialogues to illustrate children's remarkable capacity to engage in reasonable conversation about moral concepts involving fairness cheating loyalty truthtelling lying making and keeping promises obedience character and responsibility he also links such discussions to fundamental concerns over law and moral authority the roles of teachers and parents and the relationship between church and state pritchard draws broadly and deeply from the fields of philosophy and psychology as well as from his own extensive personal experience working with children and teachers the result is a rich and insightful work that provides real hope for the future of our children and their moral education

as ross perot proved in 1992 even when funded by a bottomless bank account american third parties have always struggled in their efforts to achieve recognition and political power yet even in defeat their contributions to national politics have been substantial that peter argersinger contends was certainly true of the populists a

century earlier argersinger one of our nation's foremost historians of the populist era brings together in this volume some of his best and most influential essays ranging from a study of a single election campaign to complex analyses of political organizations legislative behavior and government institutions together they amply display his consistently sharp and wide ranging insights on this important moment in american life argersinger examines among other things the populists evolution in electoral politics from creating a party to running election campaigns the enormous obstacles they overcame in the process of electing a u s senator specific laws and procedures that suppressed populism's full political participation hard won successes in western state legislatures in the face of powerful enemies and numerous internal disputes and the populists long standing struggles and frustrations with the u s congress throughout argersinger illuminates the fundamental ways in which populism challenged our political system and brings to life its volatile personalities dramatic controversies visionary programs and enduring frustrations so frustrating that an oklahoma populist once pulled a gun on the speaker of the house who kept refusing to recognize his request to speak to the assembly of special interest to political social rural western and gilded age historians this book provides a timely reminder of the political constraints on third parties in america
