in this groundbreaking work I challenge the metaphysical foundations that have shaped western thought since ancient greece following nietzsche's call to question the interpretations of plato and aristotle what I designate as the metaphysical ontology I propose a radical alternative the ontology of language for centuries we have been faithful to metaphysical assumptions that now compromise both our capacity to give meaning to our lives and the ways we relate to others western civilization has reached an impasse and it is imperative that we step back and forge a new path this work examines the fundamental axes of the observer and demonstrates that human beings are linguistic beings who invent themselves through language I developed the concept of metaphysical ontology to distinguish the dominant western tradition from my proposal of a non metaphysical ontology one that opens new possibilities for human transformation learning and coexistence this is my invitation to reimagine what it means to be human rafael echeverría

la propuesta de la ontología del lenguaje se inscribe en el desafío que nos dejara planteado el filósofo alemán friedrich nietzsche en el sentido de poner en cuestión aquella interpretación sobre el fenómeno humano nacida en la antigua grecia que luego ganara hegemonía en el mundo occidental a dicha interpretación la denominamos programa metafísico sus fundadores platón y aristóteles conforman

siguiendo el nombre de una de las grandes obras del pintor renacentista rafael sanzio la llamada escuela de atenas lo central del menaje de nietzsche fue sostener que siguiendo dicha interpretación el mundo occidental ha terminado en un callejón sin salida del que resulta imperativo alejarse ello posiblemente implica volver atrás y rehacer nuevamente el camino habiendo sido fieles a los presupuestos metafísicos hemos terminado por comprometer tanto nuestra capacidad de conferir sentido a nuestras vidas como las modalidades de convivencia que establecemos con los demás el programa metafísico que nos fuera de gran poder y utilidad durante mucho tiempo hoy entrega señales de haberse agotado y según el mismo nietzsche requiere ser sustituido por una concepción muy diferente del ser humano

correr el tupido velo expone brutalmente el sentir más profundo de este gran novelista chileno pero sobre todas las cosas es el retrato de un artista un hombre cuya identidad más allá de todas las máscaras que se haya fabricado se define desde su literatura publicar su diario de escritor fue un proyecto que josé donoso pensó más de una vez pero nunca concretó también habló con su hija algunos amigos escritores y familiares para que escribieran su biografía sin embargo lo que realmente quedó fueron sus sesenta y cuatro cuadernos donde registró sus procesos creativos pasiones odios triunfos inseguridades y contradicciones que luego vendió a las universidades de iowa y princeton estos textos desconocidos por el público general ya han dado mucho de que hablar su hija pilar optó por tomar estas miles de páginas y enfrentar lo oculto descubrir al padre que creía conocer y que no era tal leer los juicios crueles pero también el amor que donoso dejó por escrito respecto a ella y a todos quienes lo rodearon inevitablemente esto le significó pasar por el doloroso proceso de reevaluar su vida y su identidad

whether in the home or in the public arenas of media work sports politics art or religion women often become embroiled as subjects in the political social and cultural debates in america people on all areas of the political landscape see women in diverse and conflicting ways as either too liberated or not liberated enough or whether and how gender and sexual roles are rooted in either biology or culture battleground women gender and sexuality helps readers navigate contemporary issues and debates pertaining to women s lives in the united states and globally this work examines how science and culture intertwine to influence how we think about our identities desires relationships and societal roles today battleground women gender and sexuality comprises lengthy in depth discussions of the most timely issues that are debated in today s culture such as birth control comparable worth disability and gender glass ceiling immigration plastic surgery tattooing and piercing same sex marriage and sexual assault and sexual harrassment each essay provides a balanced overview of these hot button topics and a list of works for further reading after each entry serves as a stepping stone to more in depth material for students who are writing papers or researching reports
