advances in microbial ecology was established by the international committee on microbial ecology to provide a vehicle for in depth critical and even provocative reviews to emphasize recent trends in the important field of microbial ecology. Advances in microbial ecology is now recognized as a major source of information and inspiration both for practicing and for prospective microbial ecologists. Most reviews appearing in *Advances* have been prepared by leaders in particular areas following invitations issued by the editorial board. Individuals are encouraged however to submit outlines of unsolicited contributions to any member of the editorial board for consideration for publication in *Advances*. With the publication of volume 12 of *Advances in microbial ecology* there will be a change of editor and the entire editorial board. The current editor wishes to take this opportunity to thank the present editorial board: Ron Atlas, Bo Barker J. Røggen, and Gwyn Jones, as well as past members of the board for their assistance and encouragement over the years. The new editor of *Advances in microbial ecology* will be Gwyn Jones, with Bernhard Schink, Warwick F. Vincent, and David M. Ward as members of the editorial board. The outgoing board wish the new board every success in continuing the traditions established by Martin Alexander, the founding editor of *Advances in microbial ecology*. The topics featured in volume 12 of *Advances* include some related to the metabolic activities of bacteria, namely bioremediation of oil spills by R.M. Atlas and R.
