this publication presents an internationally agreed set of guidelines for producing more comparable statistics on the quality of
the working environment a concept that encompasses all the non pecuniary aspects of one s job and is one of the three
dimensions of the oecd job quality framework

the work environment can be considered one of the main determining factors that can influence the mental health of workers
especially as it regards the structural and organizational conditions to which the worker is subjected this work environment has
positive effects when work provides satisfaction and well being or negative effects provoked by situations of stress inadequate
working patterns and schedules possible situations of abuse and or harassment etc which may contribute to the appearance of
alterations in the mental health of the worker

one of the currently most active research areas within artificial intelligence is the field of machine learning which involves the
study and development of computational models of learning processes a major goal of research in this field is to build computers
capable of improving their performance with practice and of acquiring knowledge on their own the intent of this book is to
provide a snapshot of this field through a broad representative set of easily assimilated short papers as such this book is intended
to complement the two volumes of machine learning an artificial intelligence approach morgan kaufman publishers which
provide a smaller number of in depth research papers each of the 77 papers in the present book summarizes a current research
effort and provides references to longer expositions appearing elsewhere these papers cover a broad range of topics including

research on analogy conceptual clustering explanation based generalization incremental learning inductive inference learning apprentice systems machine discovery theoretical models of learning and applications of machine learning methods a subject index is provided to assist in locating research related to specific topics the majority of these papers were collected from the participants at the third international machine learning workshop held june 24 26 1985 at skytop lodge skytop pennsylvania while the list of research projects covered is not exhaustive we believe that it provides a representative sampling of the best ongoing work in the field and a unique perspective on where the field is and where it is headed
