seminar paper from the year 2016 in the subject didactics for the subject english pedagogy literature studies grade 1 5 course task based language learning and teaching language english abstract this paper deals with the question if webquests do help to improve the communicative language learning process and taskbased language learning in general even though research confirms language learning or rather task based language learning is part of the communicative approach to language learning there is still frequently believed in approaches that regard language learning as a linear process within the scope of such linear processes in terms

of language learning several language items are meant to be put together in contrast to this approach task based approaches recognize language learning as imponderable or rather hardly predictable
