provides in simple no nonsense language answers to the key questions

the cch principles of business taxation course approaches the study of taxation from the perspective of the student who will become a business person faced with business decisions that are inevitably affected by tax considerations this perspective leads to a very different coverage in this textbook coverage that is useful for accounting finance and general business majors the new edition focuses on the central concepts that build our tax framework and avoids small exceptions and details to ensure that the student can confidently master the critical underpinnings of federal taxation it abandons minutia that not only affects a very small number of taxpayers but also tends to change often in this way there are no wasted motions and students gain a stronger more solid understanding of federal tax principles many items that pertain specifically to businesses for example inventory valuation issues usually not discussed in a traditional undergraduate tax textbook are covered in this book although so many of the exclusions deductions and credits apply equally to individual and corporate taxpayers this book focuses on the business perspective an advantage to this approach is that most of the students who take only one course in taxation will learn how businesses are taxed and in turn will have a better appreciation for how taxes affect business decisions another advantage to this approach is that the topics dovetail into other business finance and accounting course work while the focus is on concepts and how taxes affect business decisions individual income taxation is not abandoned after all many core tax concepts apply to individuals as well as businesses and the principles of business taxation course is not shy in pointing out such application the book also includes a special chapter on indivi

this book examines recent developments and high profile debates that have arisen in the field of international tax law and european tax law topics such as international tax avoidance corporate social responsibility good governance in tax matters harmful tax competition state aid tax treaty abuse and the financial transaction tax are considered the oecd g20 project on base erosion and profit shifting beps features prominently in the book the interaction with the european union s action plan to strengthen the fight against tax fraud and tax evasion is also considered particular attention is paid to specific beps deliverables exploring them through the prism of european union law can the two approaches be aligned or are there inherent conflicts between them the book also explores whether when it comes to aggressive tax planning there are internal conflicts between the established case law of the court of justice and the emerging policy of the european institutions by so doing it offers a review of issues which are of constitutional importance to the european union finally the book reflects on the future of international and european tax law in the post beps world
