real property in the form of investment ownership and use pervades almost every aspect of daily lives and represents over 40 of australia s wealth such assets do not exist in isolation they are dynamic and forever evolving impacted by a range of physical economic demographic legal and other forces consequently a true appreciation of individual assets and of the property sector as a whole demands an understanding of both the assets themselves and the context and markets in which they exist the sector is complex and on the face of it confusing it is however not without logic and underlying themes and principles this book provides a wider understanding of how the real property sector works it covers topics such as the nature of real property and its functions economic drivers valuation principles legal and tenure parameters property taxation land development and subdivision asset and property management and sustainability all critical components in this complex and critically important sector it provides a wide and balanced perspective for experienced practitioners investors students and anyone involved in property decision making or wishing to secure a deeper understanding of these areas the book integrates research based theory with practical application and first hand insights into a sector that underpins the australian economy its communities and its sustainability

the dominant schools of neoclassical and neoliberal economics tell us that material scarcity is an inevitable product of an insatiable human nature against this costas panayotakis argues that scarcity is in fact a result of the social and economic processes of the capitalist system the overriding importance of the logic of capital accumulation accounts for the fact that capitalism is not able to make a rational use of scarce resources and the productive potential at the disposal of human society instead capitalism produces grotesque inequalities and unnecessary human suffering a toxic consumerist culture that fails to satisfy and a deepening ecological crisis remaking scarcity is a powerful challenge to the current economic orthodoxy it asserts the core principle of economic democracy that all human beings should have an equal say over the priorities of the economic system as the ultimate solution to scarcity and ecological crisis

this book is an interdisciplinary examination of china s new urban development model and the challenges chinese cities face in the 21st century china is in the midst of a historic developmental inflection point grappling with a significantly slowing economy rapidly rising inequality massive migration skyrocketing housing prices alarming environmental problems and strong pushback from the west in this volume western and chinese scholars in different disciplines offer the clearest look yet at some of the main challenges china faces including domestic and international contexts the new urban development model inclusion and well being of migrants and their families and urban sustainability this book sheds light on china s ongoing development and future directions and has strong policy

implications for anyone interested in the future of china

the severe consequences of the global financial crisis 2008 2009 and numerous accounting frauds and financial scandals over the last fifteen years have led to calls for more ethical and responsible actions in all economic activities including consumption investing governance and regulation despite the fact that ethics in business and corporate social responsibility rules have been adopted in various countries more efforts have to be devoted to motivate and empower more actors to integrate ethical behavior and rules in making business and managerial decisions the research handbook of finance and sustainability will provide the readers but particularly investors managers and policymakers with comprehensive coverage of the issues at the crossroads of finance ethics and sustainable development as well as proposed solutions while focusing on three different levels corporations investment funds and financial markets
