offers real mcq practice examinations at the appropriate level for preparing for your final medical examinations this book features four practice papers each containing 60 questions in best of five and multiple choice format this allows you to test your knowledge and prepare for the examination

mcqs for medical students and doctors is an unusual multiple choice question book on three accounts it covers thirteen of the specialties in medicine that every medical student has to face and every first contact physician has to deal with in encounters with their patients irrespective of the doctor's field of specialization unlike many mcq books this book goes further by providing comments that accompany 99 of the answers as explanations or additional information this makes this book an mcq book with short notes it is different from most if not all mcq books in medicine for the others are usually specialty specific this mcq book successfully covers fundamental topics in three selected pre clinical subjects viz anatomy pharmacology and therapeutics and parasitology as well as ten clinical specialties viz obstetrics and gynecology dermatology anesthesia mental health ophthalmology otorhinolaryngology general surgery orthopedics trauma internal medicine and general pediatrics detailed material is provided in book reviews and how to use for the reader's guidance

ukot's back to basics mcqs volume 3 expands the trusted series with a comprehensive collection of multiple choice questions that sharpen clinical reasoning and reinforce essential concepts across three vital domains of medical practice mental health general pediatrics and family medicine designed for medical students postgraduate trainees and practicing clinicians this volume combines exam focused preparation with real world applicability the carefully structured chapters not only test knowledge but also strengthen diagnostic accuracy therapeutic decision making and holistic patient management skills key features covers critical areas of psychiatry including anxiety mood disorders schizophrenia substance use psychotherapies and geriatric psychiatry explores pediatric essentials from neonatal care and congenital conditions to malnutrition infections tumors and cardiac disorders integrates principles of family medicine such as holistic care ethics genomics health promotion preventive strategies and clinical audit strengthens exam readiness with detailed answers explanatory notes and differential diagnoses contains comprehensive index and bibliography for further study and clinical practice

review provides a succinct updated review of common issues facing the primary care physician great tool for the family practice physician preparing for certification or recertification as well as those preparing to take the spex a panel of specialists in various clinical disciplines has been added to provide in depth knowledge of relevant clinical conditions with a holistic family practice approach

this new revision guide with over 1500 questions reasoned answers and links to explanatory text gives a comprehensive range of multiple choice questions mcqs and extended matching items emis complete with sample papers this book provides everything you need for the written parts of the mrcpsych and comparable hi

about 550 registrants from 51 different countries attended the seventh ottawa conference on medical education and assessment in maastricht we received 525 abstracts for the conference divided in thematic poster sessions and platform presentations organising the conference was an honour and we tried to meet the high standards of a friendly and relaxed atmosphere which has

characterized previous ottawa conferences during and after the conference about 250 papers were submitted for publication in the conference proceedings leaving us little time for a post conference depression despite the large number of papers the editors have attempted to review and edit the papers as care fully as possible occasionally however correspondence exceeded reasonable deadlines preventing careful editing of a small number of the papers although we felt that our editorial task was not quite finished we nevertheless decided to include these papers we thank the many authors for their enthusiastic and prompt response to occasionally tedious editorial suggestions and requests we are sure that this collective effort has resulted in a book that will make an important contribution to the field of medical education the editors want to thank jocelyn flipper berger whose expertise with desk top publishing and perseverance was a great help
