an authoritative account based on a series of 16th century alchemical pictures of jung s handling of the transference between analyst and patient

this new introduction to jung s collected works written in lively and accessible style provides a comprehensive guide to key concepts in analytical jungian psychology while charting the creative evolution of jung s thought through his own words invaluable to both beginners and those more experienced with jungian theory this book provides tables listing key readings for further study of the collected works clear explication of fundamental principles chapter

summaries prompts for deepening a critical engagement with jung s texts a glossary of key terms and suggestions for further reading this text will be an invaluable introduction for those coming to the collected works for the first time as well as a useful reference for readers familiar with the collection

the practice of psychotherapy brings together jung s essays on general questions of analytic therapy and dream analysis it also contains his profoundly interesting parallel between the transference phenomena and alchemical processes the transference is illustrated and interpreted by means of a set of symbolic pictures and the bond between psychotherapist and patient is shown to be a function of the kinship libido far from being pathological in its effects kinship libido has an essential role to play in the work of individuation and in establishing an organic society based on the psychic connection of its members with one another and with their own roots

aura glaser wrote this book to remedy a deficiency she discovered while engaged in psychological research a nearly complete omission of the importance and cultivation of compassion other books exploring buddhism and psychology have focused on what the theravada school of buddhism which teaches personal liberation through enlightenment can offer psychology a call to compassion works with mahayana buddhism in which practitioners commit to the liberation of all sentient beings with compassion central to attaining that goal in her fascinating and exceptionally clear and concise review of the work of freud jung and others glaser shows how psychology has been ambivalent about the subject of compassion and therefore has developed no methodology for helping individuals cultivate this essential quality in the service of helping others glaser introduces as a remedy the buddhist practice of the lojong expressed in the text of the seven points of mind training for developing love and compassion with modern day life examples she illustrates the four major points compassion for self compassion for others exchanging self and others and no self and no other affirming that these points are indeed attainable if we make the effort to contemplate understand and truly integrate these four essentials we will have a sound basis for both psychological health and genuine transformation div

david sedgwick breaks new ground in using detailed case histories of transference and countertransference to reveal the complexity of the analytic process

shared realities participation mystique and beyond brings together jungian analysts and psychoanalysts from across the united states the united kingdom and france carl jung s concept of participation mystique is used as a starting point for an in depth exploration of shared realities in the analytic setting and beyond the clinical narrative and theoretical

discussions move through such related areas as projective identification negative coniunctio reverie intersubjectivity the interactive field phenomenology neuroscience the transferential chimera shamanism shared reality of place borderland consciousness and mystical participation this unique collection of essays bridges theoretical orientations and includes some of the most original analytic writers of our time an essential read for psychoanalysts jungian analysts psychotherapists and analytic candidates

the congress in kyoto japan was the beginning of a new era in the life of the iaap for the first time in its history this creative and stimulating triennial gathering of jungian analysts from all over the world took place in asia and with it scientific and cultural dialogue between jungians from west and east enters a new dimension as is evident in these pages there are ever more mutually enriching developments emerging both in theory and in clinical work from culturally and often politically different points of view

covers the major concepts of counseling theories shows how to apply those theories in practice and helps readers learn to integrate the theories into an individualized counseling style incorporating the thinking feeling and behaving dimensions of human experience corey offers a text that helps compare and contrast the therapeutic models from publisher description

this is a revised updated and expanded edition of a classic work a groundbreaking survey of the jungian approach to therapy in its most important applications the majority of the contributions have been completely rewritten or replaced while the remainder have been thoroughly revised jungian analysis comprises 18 definitive essays by eminent jungian authorities on specific aspects of jungian thought and practice each contribution is written in a personal tone and style and presents the history and state of the art on the chosen topic with a reference list for further reading
