leverage the power of redis 4 x to develop optimize and administer your redis solutions with ease key features build deploy and administer high performance and scalable applications in redis covers a range of important tasks including development and administration of redis a practical guide that takes your understanding of redis to the next level book description redis is considered the world s most popular key value store database its versatility and the wide variety of use cases it enables have made it a popular choice of database for many enterprises based on the latest version of redis this book provides both step by step recipes and relevant the background information required to utilize its features to the fullest it covers everything from a basic understanding of redis data types to advanced aspects of redis high availability clustering administration and troubleshooting this book will be your great companion to master all aspects of redis the book starts off by installing and configuring redis for you to get started with ease moving on all the data types and features of redis are introduced in detail next you will learn how to develop applications with redis in java python and the spring boot web framework you will also learn replication tasks which will help you to troubleshoot replication issues furthermore you will learn the steps that need to be undertaken to ensure high availability on your cluster and during production deployment toward the end of the book you will learn the topmost tasks that will help you to troubleshoot your ecosystem efficiently along with extending redis by using different modules what you will learn install and configure your redis instance explore various data types and commands in redis build client side applications as well as a big data framework with redis manage data replication and persistence in redis implement high availability and data sharding in redis extend redis with redis module benchmark debug fine tune and troubleshoot various issues in redis who this book is for this book is for database administrators developers and architects who want to tackle the common and not so common problems associated with the different development and administration related tasks in redis a fundamental understanding of redis is expected to get the best out of this book

there was no luftwaffe fighter unit like jagdverband 44 formed in february 1945 the unit grew out of hitler s bizarre decision that the me 262 jet fighter should be used as a bomber despite its potential in the daylight defensive battles over the reich seen as a grave mistake by ~~g~~ring a small fighter unit

was formed in southern germany to prove the me 262 s ability as an interceptor formed with some of germany s most experienced fighter pilots jagdverband 44 numbered a disproportionately high number of leading aces in its ranks to the extent that it was said that the knights cross was the unofficial badge of the unit with numerous first hand accounts from pilots and detailed colour profiles this book is a fascinating account of the dramatic birth of the jet fighter and the impact it had during the bitter struggles of 1944 45

this is a major update for me the epub production techniques have changed quite a bit both for fixed layout and for reflowable epubs many of the changes i ve been waiting for with epub production have been implemented indesign now stands at the top of the heap for book production in general and epub production in particular you do not need to know code though understanding how html and css works will aid your conceptual understanding i was lukewarm about fxl until i realized that the new fixed layout epubs would show gradient paragraph rules gradient strokes and fills in tables and much more the only major things we re missing are justification and hyperlinked test does not work in fxl the exported epubs upload flawlessly to the ibooks store and kobo writing life finally the 21st century book publishing software we need is within our grasp there s still more to come but this version is very good

why not publish yourself wouldn t you rather make more money get to press sooner and keep control of your work this manual is your complete reference for writing printing publishing promoting marketing and distributing books whether you are promoting a published book or plan to write and publish one soon you will refer to this manual again and again book jacket

chances are good that if you use the or work with documents on your computer you ve come across a pdf file at least once or twice in your life over 500 million people have already downloaded adobe s free adobe reader software and we re betting you re one of them which is why we think you ll enjoy this new book on how to get the most out of the little program that s conquering the in the first ever book on this wildly popular pdf viewer best selling author ted padova shows you that there s a lot more to adobe reader than you may have known adobe acrobat 7 0 professional enables document creators to turn on the familiar acrobat commenting tools for adobe reader 7 0 users who are included in a document review this means that if you have adobe reader 7 0 you can view search and print adobe pdf files that look just like the original documents with all formatting intact you can also copy text and images download and read adobe digital editions ebooks fill in intelligent adobe pdf forms and view adobe photoshop album slide shows and ecards this book offers clear explanations of adobe reader features and fully illustrated step by step tasks to show you how to maximize your efficiency with this newly boosted productivity tool so why keep wasting time if adobe s going to give you a free lunch you might as well enjoy it
