this book provides an overall picture of east asian international politics during the early interwar period and examines the various foreign policy trends of the major powers involved including japan china britain the united states and the soviet union based on extensive original research it posits that east asia experienced four waves of international change during the interwar period the transition to the post world war i international order the appearance of nationalist china and the soviet union as actors in east asian international politics the japanese invasion of manchuria and japanese implementation of the north china buffer state strategy it considers the new challenges brought about by each of these waves how the powers particularly japan britain and the united states were able to meet these challenges by working together and how this became more difficult as time went on it argues that the washington system the international order established at the 1921 1922 washington naval conference was not a break with the past as is frequently argued on account of new forms of foreign policy including the ideological approaches of the united states and the soviet union but that rather spheres of influence diplomacy continued as before in addition in discussing japanese foreign policy the book provides a comprehensive picture of the diversity of views towards china among japanese actors and the ways these shifted over time the open access version of this book available at taylorfrancis com has been made available under a creative commons cc by nc nd 4 0 license

east asia was a major focus of struggle between the united states and the soviet union during the cold war of 1945 to 1991 with multiple hot and cold conflicts in china korea and vietnam the struggle for predominance in east asia however largely predated the cold war as this book shows with many examples of the united states and russia the soviet union working to exercise and increase control in the region the book focuses on secret treaties 26 of them signed from the mid 1890s through 1950 when secret agreements between china and the ussr including several concerning the chinese eastern railway gave russia greater control over manchuria and outer mongolia one of the most important was negotiated in 1945 when stalin signed the sino soviet friendship treaty with chiang kai shek and the chinese nationalists that included a secret protocol granting the soviet navy sea control over the manchurian littorals this secret protocol excluded the us navy from landing nationalist troops at the major manchurian ports thereby guaranteeing the chinese communist

victory in northeast china from manchuria the chinese communists quickly spread south to take all of mainland china to a large degree therefore this formerly undiscussed secret diplomacy set the underlying conditions for the cold war in east asia

the peace treaties represented an almost impossible attempt to solve the problems caused by a murderous world war in the lights that failed european international history 1919 1933 part of the oxford history of modern europe series steiner challenges the common assumption that the treaty of versailles led to the opening of a second european war in a radically original way this book characterizes the 1920s not as a frustrated prelude to a second global conflict but as a fascinating decade in its own right when politicians and diplomats strove to re assemble a viable european order steiner examines the efforts that failed but also those which gave hope for future promise many of which are usually underestimated if not ignored she shows that an equilibrium was achieved attained between a partial american withdrawal from europe and the self imposed constraints which the soviet system imposed on exporting revolution the stabilization painfully achieved in europe reached its fragile limits after 1925 even prior to the financial crises that engulfed the continent the hinge years between the great crash of 1929 and hitler s achievement of power in 1933 devastatingly altered the balance between nationalism and internationalism this wide ranging study helps us grasp the decisive stages in this process in a second volume the triumph of the night steiner will examine the immediate lead up to the second world war and its early years

the authors argue that despite a shared continent and heritage ambivalence has always characterized relations between the two countries an ambivalence stemming from differences that americans underestimate and that canadians overstate thompson and randall begin with the century in which canada was a pawn in the relations between the united states and great britain they consider the years until world war ii during which canada and the united states erected many of the bilateral institutions and mechanisms that govern their relationship in the twentieth century the authors then explore the world war and cold war

alliance based on economic interest and shared anti communist that made canada part of a new american empire the years from 1960 until 1984 most merit their subtitle ambivalent allies as it was then that this continental consensus fragmented in 1984 the relationship was restored as canada s conservative government embraced the united states with an ardour that stunned a canadian body politic nurtured on the milk of anti americanism the authors consider the economic and social dimensions of the relationship from canadian responses to the increasing weight of the u s cultural presence to the archaic stereotypes through which canadians and americans understand each other they conclude that while canadians have been obsessed with the united states canada has been a matter of consuming disinterest to the united states public and to most of its leaders despite the oft repeated platitudes about a special relationship between the two countries the authors maintain that what is striking is the extent to which u s policy toward canada conforms to u s policy toward the rest of the world for its part canada s preoccupation with the united states has shaped canadian national policies any apparent contemporary trend toward consensus and convergence between the united states and canada they conclude must be viewed through the lens of two centuries of ambiguity and ambivalence
