in diesem buch wird die aktuelle problematik der weltweit niedrigen leitzinsen aufgegriffen und das auf john m keynes zurückgehende konzept der liquiditätsfalle in die moderne makroökonomik übertragen in drei einfachen dynamischen modellen wird untersucht ob die liquiditätsfalle ein dauerhaftes oder temporäres phänomen ist dieses phänomen stabil oder instabil ist und welche annahmen und parameter die antworten auf die ersten beiden fragen beeinflussen dabei wird vor allem eine kritische auseinandersetzung mit der in geldtheorie und geldpolitik vorherrschenden auffassung zur liquiditätsfalle geboten die wichtigsten ergebnisse der vorwiegend algebraischen analyse werden durch vielfältige graphische instrumente veranschaulicht

acclaim for the first edition Ôthis easy to read collection tells the whole story filled with short well written pieces the encyclopedia covers the names and ideas that preceded keynes that carried his work to the center of the profession and that eventually supplanted him there there are excellent and unexpected articles on the austrian school the lausanne school and the ricardo effect there are well done pieces on all the basic theoretical models at the heart of keynesianism the volume has been well put together the editors

deserve special praise for letting each contributor tell his own story those who oppose keynes's ideas are just as well represented as those who carry the torch for him this evenhandedness helps to ensure a volume that is truly representative and that will allow its users to get a full picture of the life and times of keynesian economics

bradley w bateman grinnell college us the book will also be of some interest to serious scholars partly because it includes biographies of many economists too young to have been included in the new palgrave such as dornbusch fisher herschel grossman kregel lucas and robert townsend it also includes some very interesting longer essays

peter howitt the economic journal this book provides an excellent summary of the many strands of keynesian style thought both before and after 1936 its well considered entries take care to make explicit the assumptions and fundamental points of difference between theories too often concealed by the parents and advocates of specific theories in their zeal to promote the universality of the ideas there is scarcely an entry that suffers from wordiness and repetition the reader's scarce time is not abused

elizabeth webster economic record this reviewer found using this source exhilarating and endowed with additional interest in view of the 1997 discussion on the inclusion or noninclusion of keynesian economics in introductory economics textbooks the editors should be applauded for helping to preserve a part of intellectual heritage

bogdan mieczkowski american reference books it is the best single reference source on keynesian economics and will be welcomed by students and teachers in economics as well as scholars in related social sciences and government policy makers

educational book review this thoroughly revised and updated second edition of a highly acclaimed and authoritative reference work introduces the major concepts in the field of keynesian economics the comprehensive encyclopedia features accessible informative and provocative contributions by leading international scholars working in the tradition of keynes it brings together widely dispersed yet theoretically congruent ideas presents concise biographies of economists who have contributed to the debate on keynes and the keynesian revolution and outlines the basic principles models and tools used to discuss the economic consequences of the general theory longer entries on specific topics associated with keynes and the keynesian revolution analyse the principal factors that contributed to the general theory the economics of keynes and the rise and apparent decline of keynesian economics in greater detail the second edition will ensure that an encyclopedia of keynesian economics will remain the best single reference source on keynesian economics and will continue to be welcomed by academics students and teachers of economics as well as by scholars in related social sciences and government policymakers
