in this book the author proposes a fundamental new approach to the study of one of the most central concepts in social analysis that of social structure he critiques the leading models and argues that each is inadequate to the task of explaining the complexity of structures that make up society and the processes by which these structures are formed and are interlinked a new conceptualization of the processes of societal formation is then presented drawing on recent developments in the physical biological and cognitive sciences this new conceptualization allows for the multiplicity of processes of structuration which the author refers to as logics some of which function at the individual or micro level others of which function at the organizational or meso level and still others of which function at the society wide or macro level the author terms this new conceptualization a theory of heterarchy and it is the first truly comprehensive theory of societal structuration

a survey of contemporary approaches to structural inquiry includes contributions by such leading sociologists as robert k merton talcott parsons and gerhard e lenski bibliog

crothers s book provides a thorough introduction to the idea of social structure he examines the meanings of the term the history of its usage within sociology and looks at the more recent developments in thinking on social structure

written and compiled by friends and former students the idea of social structure honors robert k merton considered one of the premier sociologists of the twentieth century along with talcott parsons and marion j levy merton was emphatic in his use of the term social structure however different they were in defining and refining the term the chapters in this volume address many of merton s diverse sociological theories and in turn his theories impact upon a very large sociological territory the volume includes major statements on the context of working with merton by lewis a coser paul f lazarsfeld robert a nisbet and seymour martin lipset as well as memorable statements covering merton s interests in the sociology of knowledge and science planning communities medical education relative deprivation everyday life political roles and communication media this is a powerful sourcebook for understanding the work of merton and of his intellectual successors nisbet called the decade of the 1930s among the most vital and creative periods in american history it was certainly a period of intense struggle political military and ideological but the formation of modern sociology was without question one of the crowning achievements in the scientific evolution of the century the volume is sharply focused on merton s work and deeply appreciative of the nature of his contribution it is a landmark effort in the study of sociology as history provided by publisher

porpora is concerned with the concept of social structure and with the relationship between social structure and the individual he focuses on two different conceptions of social structure the durkheimian conception which is the dominant way in which social structure is conceptualized by sociologists and an alternative conception based on a reading of marx the author discusses in depth the various aspects of these two divergent theories and shows how the marxian conception of social structure underlies even the newer structural analyses of racism sexism and power that go beyond marxian theory he offers a sustained critique of structural sociology s theoretical elimination of the individual actor which results in a corresponding elimination of any form of agency from the explanation of social structural processes

lifestyle and social structure concepts definitions analyses is devoted the relationship between lifestyle and social structure the book begins by constructing a meaningful concept of lifestyle in order to understand and model this relationship the general formulation of the concept hinges on the descriptive word style defined as any distinctive and therefore recognizable way in which an act is performed or an artifact made or ought to be performed and made after developing the implications of the definition lifestyle is defined by analogy as any distinctive and therefore recognizable mode of living the notion of social structure is then introduced arguing that structural differentiation engenders lifestyle differentiation the remainder of the work is concerned primarily with the modeling of this relationship using data from the 1972 1973 survey of consumer expenditures and with the concept of stylistic unity key topics discussed include the relationship between the theory of

lifestyle differentiation and modern economic utility theory psychographic notions of lifestyle and the relationships between lifestyle and other key sociological concepts stratification alienation the concept of lifestyle should be of interest to a broad range of applied and theoretical researchers

social structures is a book that examines how structural forms spontaneously arise from social relationships offering major insights into the building blocks of social life it identifies which locally emergent structures have the capacity to grow into larger ones and shows how structural tendencies associated with smaller structures shape and constrain patterns of larger structures the book then investigates the role such structures have played in the emergence of the modern nation state bringing together the latest findings in sociology anthropology political science and history john levi martin traces how sets of interpersonal relationships become ordered in different ways to form structures he looks at a range of social structures from smaller ones like families and street gangs to larger ones such as communes and ultimately nation states he finds that the relationships best suited to forming larger structures are those that thrive in conditions of inequality that are incomplete and as sparse as possible and thereby avoid the problem of completion in which interacting members are required to establish too many relationships and that abhor transitivity rather than assuming it social structures argues that these patronage relationships which often serve as means of loose coordination in the absence of strong states are nevertheless the scaffolding of the social structures most distinctive to the modern state namely the command army and the political party

annotation this is an exploration of the creative work done by leading sociologists who were inspired by the scholarship of neil smelser

application of cultural anthropology sociology psychology and psychoanalysis to the study of some 250 different cultures
