this is the eagerly awaited second volume of jean berenger s history of the habsburgs it covers the last two centuries of their rule and provides a compelling account of the fluctuations of habsburg dynastic power and its disintegration after world war one berenger gives a rich portrait of habsburg greatness under maria theresa and joseph ii and shows how their successors proved more adroit at riding the tide of nationalism in their multi ethnic empire than is often recognised

this is probably the best book ever written on the habsburgs in any language certainly the best i have ever read students scholars and the general reader will never find a better guide to habsburg history alan sked times literary supplement in the habsburgs martyn rady tells the epic story of a dynasty and the world it built and then lost over nearly a millennium from modest origins the habsburgs grew in power to gain control of the holy roman empire in the fifteenth century then in just a few decades their possessions rapidly expanded to take in a large part of europe stretching from hungary to spain and from the far east to the new world the family continued to dominate central europe until the catastrophe of the first world war with its seemingly disorganized mass of large and small territories its tangle of laws and privileges and its medley of languages the habsburg empire has always appeared haphazard and incomplete but here martyn rady shows the reasons for the family s incredible endurance driven by the belief that they were destined to rule the world as defenders of the roman catholic church guarantors of peace and patrons of learning the habsburg emperors were themselves absurdly varied in their characters from warlords to contemplatives from clever to stupid from idle to frenzied but all driven by the same sense of family mission scattered around the world countless buildings institutions and works of art continue to bear witness to their overwhelming impact the habsburgs is the definitive history of a remarkable

dynasty that for better or worse shaped Europe and the world

Europe's restorations were characterised by their evolving dialectics. The chapters in this first volume address the key questions and controversies of Napoleonic history from a national and international perspective from the re-ordering of the European world through the tools of intervention, occupation and diplomacy to the creation of new constitutional monarchies across France, Scandinavia and Germany. The volume outlines the processes that realigned national priorities and the accompanying dynamics of social and political identity in a structure that makes sense of what Luigi Mascilli Migliorini describes as the fiendishly complex process of reconstructing order in post-Napoleonic Europe. This collection of essays brings together experts in the field to set a new precedent for transnational research frameworks in the study of the European restorations.

Geographically and linguistically diverse by 1789 the Habsburg monarchy had laid the groundwork for a single European polity capable of transcending its unique cultural and historic heritage, challenging the conventional notion of the Habsburg state and society as peculiarly backward. Charles W. Ingrao traces its emergence as a military and cultural power of enormous influence. In doing so he unravels a web of social, political, economic and cultural factors that shaped the Habsburg monarchy during the period firmly established as the leading survey of the early modern Habsburg monarchy. This third edition incorporates a quarter of a century of new international scholarship, extending its narrative reach. Ingrao gives greater attention to peripheral territories, manifestations of high culture and suggests links between the early modern monarchy and the problems of contemporary Europe. This elegant account of a complex story is accessible to specialists and non-specialists alike.

This is the second volume of Berenger's history of the Habsburg empire. The work explores the complex relationships of the ethnic groups within the empire, particularly the Czechs and the Hungarians, and shows how the dynasty survived and gained strength before World War I.

The Habsburg monarchy or Habsburg empire is an unofficial appellation amongst historians for the countries and provinces which were ruled by the junior Austrian branch of the House of Habsburg, 1278-1780, and then by the successor House of Habsburg-Lorraine from 1780 to 1804. The Habsburg monarchy/Habsburg empire term was born only posteriorly in the early 19th century, which referred to the Habsburg dominions between the 1526-1804 period. The imperial capital was Vienna, except from 1583 to 1611 when it was moved to Prague. From 1804 to 1867 the Habsburgs ruled the Austrian Empire, and from 1867 to 1918 Austria-Hungary. Wikipedia
