the judgments that are published in this book reveal Justice Nayai Aganaba of Nigeria's knowledge of the law, candour and judicial acumen written by respectable authors including judges, academics, practising lawyers, some of whom are senior advocates of Nigeria. The essays will be useful not only for lawyers but also for law students who will appreciate the lack of jargon used.

The challenges faced by 21st century businesses, organizations and governments are characterized as being fundamentally different in nature, scope and levels of impact from those of the past as problems become increasingly complex and wicked. Conventional reductive approaches and data-based solutions are limited. The authors argue that practical wisdom is required. This book provides an integral and practical model for incorporating wisdom into management decision making based on a cross-disciplinary conceptualization of practical wisdom. The authors distinguish systematically between data, information, knowledge and wisdom based decision making while they suggest that data, analytics, information and knowledge can assist decision makers to better deal with complex and wicked problems. They argue that data-based systems cannot replace optimized human decision making capabilities. These capabilities, the authors explain, include a range of qualities and characteristics inherent in philosophical, psychological and organizational conceptions of practical wisdom. Accordingly, in this book the authors introduce a model that identifies the specific qualities and processes involved in making wise decisions, especially in management. The model is based on the empirical findings of the authors' studies in the areas of wisdom and management. This book is a practical resource for professionals, practitioners and consultants in both the private and public sectors. The theoretical discussions, critical arguments and practical guidelines provided in the book will be extremely valuable to students at the undergraduate and postgraduate levels as well as upper level postdoctoral researchers looking at business management strategies.

This text is engaging and practical yet research-based. Its style is designed to help students achieve the success they desire. Specifically, the ideas, tools and techniques help students enhance their effectiveness, career potential and general well-being.
