managers are often under great pressure to improve the performance of their organizations to improve performance one needs to constantly evaluate operations or processes related to producing products providing services and marketing and selling products performance evaluation and benchmarking are a widely used method to identify and adopt best practices as a means to improve performance and increase productivity and are particularly valuable when no objective or engineered standard is available to define efficient and effective performance for this reason benchmarking is often used

in managing service operations because service standards benchmarks are more difficult to define than manufacturing standards benchmarks can be established but they are somewhat limited as they work with single measurements one at a time it is difficult to evaluate an organization s performance when there are multiple inputs and outputs to the system the difficulties are further enhanced when the relationships between the inputs and the outputs are complex and involve unknown tradeoffs it is critical to show benchmarks where multiple measurements exist the current book introduces the methodology of data envelopment analysis dea and its uses in performance evaluation and benchmarking under the context of multiple performance measures

for some time now the study of cognitive development has been far and away the most active discipline within developmental psychology although there would be much disagreement as to the exact proportion of papers published in developmental journals that could be considered cognitive 5090 seems like a conservative estimate hence a series of scholarly books devoted to work in cognitive development is especially appropriate at this time the springer series in cognitive development contains two basic types of books namely edited collections of original chapters by several authors and original volumes written by one author or a small group of authors the flagship for the springer series is a serial publication of the advances type carrying the subtitle progress in cognitive development research each volume in the progress sequence is strongly thematic in that it is limited to some well defined domain of cognitive developmental research e g logical and mathematical development development of learning all progress volumes will be edited collections editors of such collections upon consultation with the series editor may elect to have their books published either as contributions to the progress sequence or as separate volumes all books written by one author or a small group of authors are being published as separate volumes within the series
